

NOTICE OF AMENDMENT

Amendment to the Manual of Standards – Air Traffic Services

Please be informed that the Manual of Standards – Air Traffic Services (MOS-ATS) has been amended.

The key amendments to MOS-ATS pertain to:

- the conduct of safety risk assessments for proposed or planned military or aerial activities potentially hazardous to civil aircraft and to implement appropriate risk mitigation measures;
- read-back of safety-related parts of air traffic control instructions by vehicle drivers operating or intending to operate on the manoeuvring area to the air traffic controller; and
- the use of new performance-based navigation (PBN) approach procedures for parallel approaches.

Version 2.9 of the MOS-ATS comes into effect on 5 November 2020 and can be found on the [CAAS website](#).

Should you have any suggestions or comments on MOS-ATS, please do not hesitate to provide your feedback at <https://go.gov.sg/publication-feedback>.
