

## **NOTICE OF AMENDMENT**

### **Revision of Manual of Aerodrome Standards (MOAS)**

Please be informed that the Manual of Aerodrome Standards (MOAS) has been amended to:-

- include new provisions to enhance the aviation fuel quality regulatory framework in a certified aerodrome in Singapore; and
- improve the clarity of provisions relating to aerodrome rescue and firefighting training organisation and promulgation of AIP Supplements or NOTAM for aerodrome works.

The MOAS version 2.2 comes into effect on 26 February 2018.

The MOAS version 2.2 can be downloaded at our [CAAS website](#).
