

NOTICE OF AMENDMENT

Revision of Manual of Aerodrome Standards (MOAS)

Please be informed that the Manual of Aerodrome Standards has been amended to reflect the following key changes:

- Clarification of the scope of an aerodrome operator's safety responsibilities with respect to Ground Service Providers (GSPs) and their operations;
- Insertion of requirements for aerodrome operators to submit risk assessments to CAAS for significant or major changes to aerodrome activities;
- Clarification on the responsibilities of the aerodrome operator regarding obstacle removal within and around the aerodrome;
- Insertion of requirements to have aerodrome rescue and fire-fighting (ARFF) personnel trained at CAAS approved or designated ARFF training organisations;
- Update of Safety Management System requirements; and
- Insertion of additional requirements pertaining to the volume of airspace at and around an aerodrome to be kept free of obstacles.

The MOAS comes into effect on 25 March 2013.

The MOAS can be downloaded at our CAAS website at <http://www.caas.gov.sg>
