CAAS Circular 2024/01

23 August 2024

PRECAUTIONARY TEMPERATURE AND VISUAL SCREENING FOR INBOUND TRAVELLERS

The Ministry of Health has put in place precautionary measures to enhance our surveillance capabilities against mpox at our borders.

2 From 23 August 2024, temperature and visual screening has been put in place at Changi and Seletar airports for inbound travellers and crew arriving on flights from places which may be exposed to the risk of mpox outbreaks. Health advisories have also been put in place at air checkpoints, so that travellers will take the necessary personal precautions to avoid being infected.
